BATTERY BACKUP SUMP PUMP SYSTEM

BWD12-120C

Why Basement Watchdog

The Basement Watchdog Big Dog CONNECT® Battery Backup Sump Pump System:

- Monitors pump, power and battery conditions
- Pumps up to 3,500 GPH at 0-foot lift and 2,200 GPH at 10 feet
- Can connect to a Basement Watchdog CONNECT Module for monitoring your system while away from home
- Tests the pump weekly to ensure that it is working properly
- Accommodates maintenance-free/AGM or wet-cell battery
- Can connect 2 batteries for extended runtime

The Basement Watchdog Big Dog CONNECT® Battery Backup Sump Pump System includes:

- A control unit with a Dual Float Switch, battery cables, a 5-Amp AC fuse and a 25-Amp DC fuse
- Pump with 1.5-inch PVC pipe adapter
- USB data port and remote terminal to hook up to The Basement Watchdog CONNECT WiFi Module and other devices
- Plastic zip tie for mounting the Dual Float Switch
- Battery box
- Battery charger

Compatible Batteries

Basement Watchdog Maintenance Free AGM Standby Battery

- No need to add battery fluid or distilled water
- Runs our sump pump intermittently for days
- Lasts longer in standby operation

- Sends email, text, or push notifications to your phone, tablet, or computer
- The Basement Watchdog free app shows you the status of your backup system
- No monthly or yearly fees or subscriptions

BW-WiFi2

Installation Options

Installation

The Basement Watchdog Big Dog is easy to install in either a normal or narrow sump pit. The discharge pipe can be run directly outside, or it can be plumbed into the discharge of the main A/C pump.

You also will need

- Basement Watchdog Maintenance Free Battery
- 1.5-inch rigid PVC pipe and fittings
- PVC primer and cement
- Rubber union with hose clamps or a "Y" connector and 2 check valves, depending on the installation method

For narrow sump pits you also will need:

- An "L" bracket at least 6 inches long (stainless steel preferred)
- Two stainless-steel hose clamps
- One stainless-steel screw (#8-32 x 3/4") plus a matching washer nut
